- Seaport NxG Prime
- CAGE: 50E79
- DUNS#: 809210516
- Consistent, superlative CPARS

*These four **core values—integrity, capability, agility, and innovation—** are the guideposts we use to make a difference in the mission-critical programs we support.*

Program Management

ALC brings expertise in all areas of program management for a variety of private industry and government clients. From major Federal Aviation Administration (FAA) research & development programs to US Marine Corps operations, we manage a program's entire life-cycle—from inception and acquisition, to development and deployment, to operations and maintenance, and contract close out.

Logistics and Supply Chain

From forecasting, production planning, and technical data management, to provisioning, inventory management, maintenance and disposal. We specialize in modernization that supports joint interoperability, integration, and flexibility for our customers, including the Defense Logistics Agency (DLA) and the US Navy spanning the entire asset lifecycle.

Acquisition Support

ALC offers in depth subject matter expertise for the full acquisition support life cycle—from pre-award through closeout. We work within the framework of the Federal Acquisition Regulations, the Defense Acquisition Regulations, and similar Federal Agency guidance such as the Department of the Interior Acquisition Regulations (DIAR) and FAA's Acquisition Management System (AMS).

Engineering Support

ALC provides engineering and technical services to support major systems acquisition programs, life cycle sustainment, field and depot level maintenance and repair, technical data management, configuration management, and process engineering. Consultants provide Reliability, Availability, and Maintainability (RAM) Analysis; modeling; and performance measurement.

Technology Integration

ALC assists clients in designing, developing, and implementing technology and processes to enhance. We synchronize technology to align with our client's mission and business strategy — as a discrete service or as a comprehensive enterprise solution.

What our Customers have said…

"ALC employees have played a vital role to increase efficiency through innovation to the Marine Corps' Enterprise Lifecycle Maintenance Program (ELMP). ELMP is over a billion-dollar program that receives scrutiny at the highest levels of the Marine Corps leadership."
—USMC Logistics Command
Reset and Reconstitution Support Contract

"ALC has historically provided exceptional IA compliance and support. This was critical during a surprise Command Cyber Readiness Inspection in which the Database Administration performed exceptionally well and demonstrated the protective measures that the Command takes to secure training databases."
—US Army Training Information Architecture
Application Sustainment Contract

"ALC is always willing to go the extra mile. Being able to prioritize and ensure all tasks are completed on time is critical to the success of this office. ALC is always on point to deliver."
—Federal Aviation Administration, ANG-A1
Program Management Support Contract

"That kind of turn-around is quite a commodity for Port Operations, Base Security, and for the Air Force… ALC's enthusiasm and work ethic has directly impacted Joint Base Charleston!"
—Joint Base Charleston
Maritime Maintenance and Logistics Contract

"Thanks to all of you. Your hard work and positive caring work ethic has made this year a success. I appreciate all of you and rely on you very much. Great job!"
—National Park Service
